

Claiming Junior Records at Cleve Archers

This document sets out how to claim archery records depending on where you shot the round and the status of the event at which you shot. You should read this before entering tournaments because certain records can only be claimed on the day at the tournament.

I shot the round at my club on a normal club day or at another club on one of their 'normal' club shoots.	
What can I claim ?	Potentially you can claim a Cleve Club record and a Gloucestershire County record.
Procedure for claiming	<ul style="list-style-type: none"> Send your score (as you would with any round you shot) to the Club Record Officer along with confirmation of who witnessed your scoring (this can be a parent or another archer). <p>The Club Record Officer will update the Club's records. The lists on the Club's website will be updated in due course. At the end of each month, the Club Record Officer submits all scores shot during the month to the County Record Officer (CRO) and alerts the CRO to any scores that appear to have broken an existing county record. Providing another archer from another club has not beaten the same existing county record with a higher score than yours, then your name and score will appear as the new county record on the Gloucestershire Archery Society website in due course.</p>
I shot the round at a tournament	
What can I claim ?	<p>Potentially you can claim a Cleve Club record, a Gloucestershire County record, a Regional (GWAS) record and a National or World record.</p> <p>Was the tournament a Record Status event ?</p> <p>Yes: You may be able to claim a Regional (GWAS) record if a) your score is a County record and b) the tournament was an Open event (i.e. it was not an invitation-only event, for example, representing Gloucestershire at an Inter-county shoot). You may also be able to claim a National or World record depending on the Record status of the event.</p> <p>No: You may still be able to claim a Regional (GWAS) record if a) your score is a County record and b) the tournament was an Open event.</p>

<p>Procedure for claiming</p>	<ul style="list-style-type: none"> • For claiming Club and County records: Send your score to the Club Record Officer along with a copy of the tournament's Results List when it becomes available (usually a few days after the event). <p>The Club Record Officer will update the Club's records. The lists on the Club's website will be updated in due course. At the end of each month, the Club Record Officer submits all scores shot during the month to the County Record Officer (CRO) and alerts the CRO to any scores that appear to have broken an existing county record. Providing another archer from another club has not beaten the same existing county record with a higher score than yours, then your name and score will appear as the new county record on the Gloucestershire Archery Society website in due course.</p> <ul style="list-style-type: none"> • For claiming a Regional (GWAS) record, you (the archer) will need to complete a form available under the Records section on GWAS' website. You have 3 months in which to do this after the tournament. If the tournament was outside of Gloucestershire, you will need a paper copy of the tournament Results List. The form (with Results List where applicable) needs to be sent to the County Record Officer. (S)he will validate the claim as a County record and will then send the claim to the Regional Records Officer (RRO). The RRO will, in due course, update the records on the GWAS website. It is the archer's responsibility to claim Regional records. If you are lucky, the Club Record Officer will alert you to the fact that you may have broken a Regional record, but the paperwork to claim it <u>must</u> be done by the individual archer (or their parent). • For claiming National or World records, you <u>must</u> do this on the day of the tournament before you leave the event. It cannot be done at a later stage because the paperwork is co-ordinated by the person who organises the tournament.
