

Outdoor Archery Rounds and Age Categories

Archers may shoot any combination of target face, number of arrows and scoring system that they like. However, only certain combinations are officially recognised for record purposes by the sport's governing bodies (GNAS and FITA). In addition to this, records at county level and above can only be set in certain outdoor rounds according to the archer's age. The table below lists recognised archery rounds and indicates in which rounds it is possible to set a record according to the age category of the archer. Those rounds are indicated by a tick (✓). It is perfectly acceptable for clubs to recognise whatever rounds they like and create their own records on a local basis accordingly. There are no age-specific restrictions with records for indoor rounds.
