

CLEVE ARCHERS

Archers Guidance

You must read and agree to follow all of the instructions listed in the archers guidance.

This is for the safety of yourself and others.

STAY ALERT

- Archers **MUST NOT** come to the range/club if they show symptoms of any illness but in particular of Covid-19.
 - These are highlighted on NHS Direct and include:
 - A new persistent and dry cough
 - A temperature
- If you are symptomatic, living in a household with a possible COVID-19 infection then guidance is that you should remain at home.
If you are classified as extremely vulnerable on health grounds, although you can meet people outdoors and, from 4 July, indoors, you should be especially careful and be diligent about social distancing and hand hygiene. For those shielding, you can now consider taking safe exercise outdoors and meeting up with one person outside your household, always maintaining social distancing and robust hand and respiratory hygiene.
- Archers should notify the club should they develop symptoms after attending the archery range.
- After the session, archers should sanitise their hands, clean their equipment and anything else used at the session.
- In order to minimise contact, there is no need to remain at the club if you are not shooting.

ARCHERS

- **OUTDOOR ONLY.** Targets may be used by two archers from different households, when shooting outdoors, in two single details (as long as 2m social distancing is maintained); one archer; or one group of archers of any size if from the same household
- Where appropriate provide target faces and target pins to archers for them to keep, and ask that they re-use or dispose of at home after use. If this not possible then ensure any shared equipment is cleaned/sanitised after contact.

- Archers must practice social distancing at all times and maintain a distance of at least 2 metres apart. If this is not practical/possible, then other mitigating practices, such as face coverings or physical barriers such as protective screens, should be used as per the 1m+ guidance.
- Do not touch equipment that other people touch, for example, avoid pulling out someone else's arrows, moving sights.
- Avoid sharing equipment where possible. Archers should use their own equipment if possible (or equipment that is loaned to them by the club and is kept by the archer for a period of time). Where this is not possible and is deemed a barrier to participation, clubs, coaches & archers need to do everything practical to minimise the risk of transmission.

These include:

- The frequent cleaning of objects, equipment and surfaces that are regularly touched, ensuring there is adequate disposal arrangements for waste.
- Sanitisation of all equipment after every use, before being used by someone from a different household.
- Wash/sanitise your hands thoroughly before and after using, handling or cleaning equipment.

Facilities

- There will be no club facilities, the container will be locked to prevent contamination.
- Toilets are to be used ONLY in an emergency, and therefore you should come prepared.
- People from different households should not travel in the same car.
