

Men in Sheds

Cleve archers are a community amateur sports club based in Hambrook. We would like to form a men in sheds group for those who would like to use existing abilities or learn new skills related to grounds and facility maintenance and equipment repair.

The group would be open to the older or retired age group who would like to establish new friendships while supporting the club aims to create an inclusive and welcoming environment.

Activities will provide the opportunity to work together and form a group that will provide the club with a workforce to be proud of.

A priority for the group would be maintaining the hedgerows and trees on the north and south borders and ground preparation for planting wildlife meadows.

For those interested in repairing dry stone walls this could be a great opportunity to learn a new skill.

If you are interested, please contact our [club secretary](#) who will be pleased to answer any questions you may have.
